UNEMPLOYMENT INSURANCE CLAIMS PRESS RELEASE

For Immediate Release
September 18, 2020

Initial Claims Rise Slightly in Regular and PUA Programs; Continued Claims Decline for 5th Straight Week

CARSON CITY, NV - Finalized data from the Nevada Department of Employment, Training and Rehabilitation (DETR) show initial claims for unemployment insurance (UI) totaled 8,332 for the week ending September 12, up 381 claims, or 4.8 percent, compared to last week's total of 7,951 claims. Through the week ending September 12, there have been 686,683 initial claims filed in 2020, 665,031 of which have been filed since the week ending March 14.

Continued claims, which represent the current number of insured unemployed workers filing weekly for unemployment insurance benefits, fell for the fifth consecutive week to 206,166, a decline of 10,021 claims, or 4.6 percent, from the previous week's total of 216,187. This is the fewest continued claims since the report week ending April 11 when there were 189,007 claims filed.

Nevada's insured unemployment rate, which is the ratio of continued claims in a week to the total number of jobs covered by the unemployment insurance system (also known as covered employment), fell by 0.7 percentage points to 14.9 percent. It should be noted that the calculation of the insured unemployment rate is different from that of the state's total unemployment rate.

The Pandemic Unemployment Assistance (PUA) program, which provides up to 46 weeks of benefits for the self-employed, 1099 contract workers, and gig workers saw 10,318 initial claims filed in the week September 12, an increase of 486, or 4.9 percent, from last week's total of 9,832. Through the week ending September 12, 451,497 PUA initial claims have been filed.

PUA continued claims totaled 94,736 in the week ending September 12, a decline of 11,004, or 10.4 percent, from the previous week's revised total of 105,740. Weekly PUA continued claims are now reported by the benefit week claimed. This follows the reporting procedure for regular continued claims and allows us to understand the number of unemployed workers filing weekly for PUA benefits.

Nevada's Pandemic Emergency Unemployment Compensation (PEUC) program, which provides up to 13 weeks of benefits to individuals who have exhausted their regular unemployment benefits, saw 28,121 claims filed in the week, an increase of 2,223 claims from a week ago. In the next several weeks, PEUC claims are expected to increase sizably as large groups of regular program filers exhaust their regular unemployment benefits.

Nevada's State Extended Benefit (SEB) program, which provides up to 20 weeks of benefits to individuals who have exhausted both their regular unemployment benefits and PEUC program benefits, saw 3,529 claims filed in the week, an increase of 342 claims from a week ago.

Nationally, the advance figure for unadjusted regular initial claims was 790,021 a decrease of 75,974 claims from the previous week. The national insured unemployment rate for the week ending September 5 was 8.4 percent, a decline of 0.7 percentage points from the previous week's rate. The national rate is reported with a one-week lag.

To file for unemployment in the State of Nevada, please use the online application available 24/7 at <http://ui.nv.gov/css.html>. People unable to file online may file via telephone by calling a UI Claims Call Center between 8 a.m. and 8 p.m., Monday through Friday and Saturday between 8 a.m. and noon. Northern UI Call Center: (775) 684-0350; Southern UI Call Center: (702) 486-0350; Rural areas and Out-of-State: (888) 890-8211. Claimants are highly encouraged to use the internet to file their UI claims, as it is the fastest and most convenient way to file and reserves the phone lines for individuals who are not able or do not have the necessary resources to file online. Online filing during non-peak hours, such as early mornings, at night or weekends is also highly recommended. To continue to receive benefits, claimants must file weekly.

DETR is aware of the unemployment fraud that is afflicting the state and is actively working with law enforcement entities and the Department of Labor to detect, prevent and address unemployment fraud. Employers and individuals who believe they have been a victim of unemployment fraud, can file a report with the agency by visiting www.detr.nv.gov and selecting the [Fraud Reporting Form](#) on the left under "Quick links." Once a report is filed with the Department of Employment, Training and Rehabilitation (DETR), nothing else is required by the reporting party. DETR will flag the account so payments are not issued. If needed, the Department may reach out for additional information. To view what additional steps individuals and employers can take should they believe a fraudulent claim has been filed, review DETR's [fraud flyer](#) located on the Bulletin Board at www.detr.nv.gov.

For Nevada workers who are self-employed, 1099 contract workers, and gig workers, Nevada's Pandemic Unemployment Assistance program (PUA) is available. For further information regarding the PUA program visit, detr.nv.gov/pua#. Individuals will be able to file online at www.employnv.gov or call the PUA Call Center at (800) 603-9681 between 8 a.m. and 8 p.m., Monday through Friday, and Saturday between 8 a.m. and noon.

Claimants are encouraged to visit <http://ui.nv.gov/css.html> and at detr.nv.gov/coronavirus to view important announcements and access essential resources. Online tutorial videos are also available in both English and Spanish and can be viewed on the [Nevada Unemployment Insurance](#) YouTube page.

Data Dashboard Page

In effort to limit the overall length of this report, an interactive report was created that includes weekly data for all programs. This data is available for download on the "Data" tab of the Weekly Claims Characteristics by Program report below.

Weekly Reports

Weekly Claims Dashboard

The claims data contained on the ETA 539 report are used in current economic analysis of unemployment trends in Nevada.

Weekly Claims Characteristics by Program

This report provides weekly information about the characteristics of claimants in Nevada for all programs.

Weekly Claims by County

The claims data contained in this dashboard provide unemployment insurance trends by county in the State of Nevada. This dashboard allows for exploration of these trends.

Monthly Reports

Monthly Claims Dashboard

The ETA 5159 report contains monthly information on claims activities and on the number and amount of payments under state unemployment insurance laws. The data on this report provides the basis for many common UI measures such as average duration, exhaustion rates, weeks compensated, and benefits paid. This dashboard allows for exploration of these measures and trends in the State of Nevada.

Monthly Claims Demographics

The ETA 203 report provides information about the characteristics of Unemployment Insurance (UI) claimants in Nevada. This data is useful in describing the population of claimants and determining how that population changes over time and under various conditions. It can also be compared with characteristic figures of the total unemployed as published by the Bureau of Labor Statistics (BLS).

Glossary of Terms

Initial Claim: Any notice of unemployment filed to request a determination of eligibility for unemployment insurance benefits, or to begin a subsequent period of eligibility within a period of eligibility. Initial claims measure emerging unemployment in the state.

Additional Claim: An initial Claim which reopens a previously existing claim, where the claimant stopped filing due to intervening employment.

Reopened Claim: A reopened claim is filed if you have previously filed a claim but never submitted any weekly claims.

Continued Claim: After an initial claim determines a claimant is eligible for unemployment insurance benefits, the claimant's weekly benefit claims are counted under continued claims. Continued claims in aggregate represents the insured unemployed receiving benefits in the state, and is used for economic purposes.
