

Housing Heroes ask you to support increased funding for the *Challenge Program*

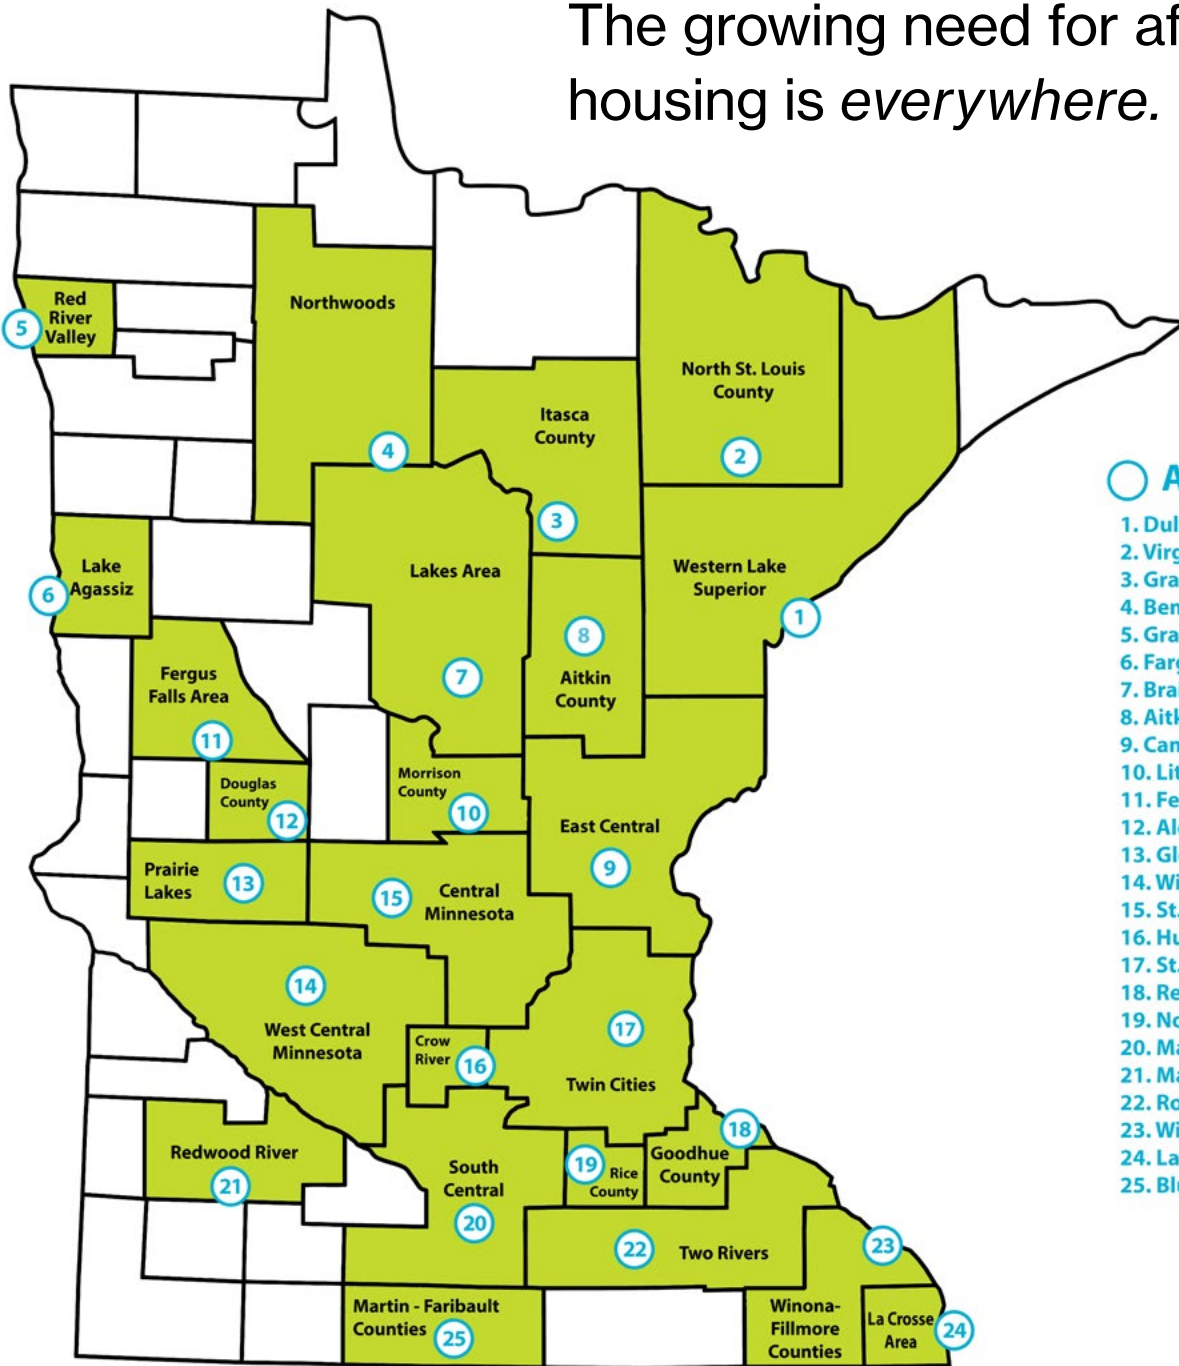

The **Challenge Program** is:

- the state's **primary resource** to create affordable housing for families with a wide range of incomes
- essential to meeting the **workforce housing** needs of local communities
- used for development and rehabilitation of **affordable homeownership and rental housing**
- **flexible** to ensure that it is effective in both Greater Minnesota and the Twin Cities
- **oversubscribed** – each year housing projects are unfunded due to limited financing

For more information, contact Greta Gaetz at **612-790-1179** or greta.gaetz@tchabitat.org

The growing need for affordable housing is *everywhere*.
